About India

India - A sub-continent in central Asia with rich and varied heritage demonstrates unity in diversity. A country with 29 States and 9 Union territories carries a Global image. A frontier in technological advancement keeps it ahead. A land of spiritual guide to the world is pivotal. India is in forefront to fulfil the sustainable development goals given by UNO. Adhering to the principle of "Vasudaika Kutumbakam" the country strives for Global Sustainability.

About Hyderabad

Hyderabad located along the banks of River Musi, is the largest city and capital of Telangana State. It is perched on a hilly terrain surrounded by beautiful artificial lakes, including the Hussain Sagar that predates the founding of the city. The city is home to some exotic flora and fauna and is one of the fastest growing cities getting greener every day. A hub of technology firms, including Microsoft and Oracle call Hyderabad a 'Hi-Tech City' home.

About Indian Institute of Management and Commerce

Indian Institute of Management and Commerce, founded in 1973, is managed by Vasavi Foundation. The Institution strives to fulfil its mission to provide educational opportunities to all aspiring youth to excel in life by developing academic excellence, fostering values, creating civic responsibility and building global competencies in a dynamic environment. For its contribution in the field of education, IIMC was recently given State-wise 4th Rank and 42nd Rank in India by Education World Magazine, 2021-22. The Outlook magazine has given 2nd Rank among the top BBA Colleges and 3rd Rank among top Commerce Colleges of Hyderabad. As per the survey made by India Today magazine in 2022, IIMC secured 4th Rank among top Commerce Colleges, 5th Rank among top BBA colleges and 9th Rank among top Science Colleges. IIMC secured 5th place among top Commerce Colleges, as per the survey of Week Magazine in 2021-22.

About the Conference

"World is a Global village" – New Technology, Innovations, Connectivity, Communication erased boundaries between the countries. Globalization is the buzzword. At this point of time, it is very much necessary to assess skills for sustainable growth. The conference is a Global platform to discuss and present research ideas on dynamic 21st century skills.

Objectives:

1. To explore 21st century skills for Global Sustainability.
2. To understand diversified skills for Global Sustainability.

Expected Outcomes:

1. Awareness on 21st century skills.
2. The inferences can be utilized in the growth of Global Sustainability and enhance skills in students.

The world is full of opportunities, but there is always a gap between academics, industry and employability. Intellectuals, professionals and researchers recognised 21st Century Skills to be inculcated among the youth to decrease the gap. 21st Century Skills include Critical Thinking, Creativity, Collaboration, Communication, along with required skillset. All departments of the college collaborate for the event, the research inferences are shared and recorded for future use. The conference is intended to bridge the gap and to explore the skills in the following areas:

Sub Themes

Commerce & Management

Dynamics in Accounting
Economic Viability
Fintech
Strategic & Visionary Management
Digital Literacy
Global Citizenship Education (GECD)
Social Emotional Learning
Welfare Schemes & Economy
Behavioural Commerce

Business Analytics

Transformational Leadership
Change Management
Emotional Intelligence
Trends in Employee Engagement
Global Business Management
E-Commerce
Innovations in Management/Managing Innovations
Stress & work life management
Entrepreneurship & Business growth
Moon Lighting
Women in STEM (Science, Technology, Engineering and Mathematics)
Crossing the Chasm
Workforce Diversity
Design Thinking
VUCA - Global Strategies
Virtual Learning
Persona Marketing
Global Financial Crisis
Global Wars and Economy
Quality Management: Issues and Challenges
Crypto currency / Digital currency
Logistics Management

Mathematics

Mathematical Modelling
Applications of differential Equations
Applications of Linear Algebra
Fuzzy Logic and Applications
Numerical Analysis
Financial Mathematics
Algebra and its Applications
Trigonometry in Navigation
Number Theory and Networks
Theoretical and Computational Fluid Dynamics
Mathematical Biology
Application of Derivatives in Business and Economics
Mathematical Applications in Engineering, Science and Technology

Statistics

Statistical Approaches in Data Science
Symposium on Stochastic Modelling
Design of Simulation Experiment
Implementation of Design of Experiment in Agriculture Industry and Manufacturing
Multivariate Analysis
Cryptography in Statistics
Applications of Bhattacharya Bounds
Recent Advancements in sampling theory & its applications

Information Technology

Artificial Intelligence
Machine Learning
Data Science
Cyber Security/Network Security
Metaverse
5G Technology/Latest Mobile Communication Network
Big Data
Data Mining
Image Processing
Internet of Things (IoT)
Block Chain Technology
Wireless Networks

Research

Publication Ethics
Preprints in research
Innovative tools for research analysis
Validation of research results
Imparting research for students
Blending of research in Academics
Social Sciences Research
Start-ups v-i-a Research
Trends in research publications
Career enhancement through research education
Corporates and Research
Plagiarism

Education & Library Science

ICT (Information, Communication and Technology)
Literacy Global Education Initiatives
Education and Economic Growth
Information Services in Global Education System
21st Century Education and Skills
Making Innovative use of Knowledge, Information and opportunities
Implementation of Innovative Strategies
Digital Learning and Continuous Professional Education Development in Education System
Use 21st Century Skills to understand and Address Global Issues

Environmental Studies

Sustainable Development Goals
Technology Applications in EVS
Waste Management
Renewable Energy Resources
Global Warming Issues
Environmental Conservation
Reduce, Recycle and Reuse
